Over 150 varieties to choose from...

Use High Yield Dutch Bulb Food

OR

High Yield Bone Meal when planting

- Plant this fall for spring color!
- Prepare beds before planting with Soil building compost and

Soil Activator

- Fertilize for huge flowers!

Mole Go

Repel Vole & Mice from doing winter damage to your lawn and 'Fall Bulbs'. Will last up to 6 weeks. Must be applied prior to first heavy snow fall.

Deer Stopper

- Keep deer away with a safe natural formula

Fall Lawn Care

- Best time of year to plant a new lawn!
- We have custom mixes for Cache Valley!
- We have rollers and spreaders to rent for your convenience!
- Overseed existing lawn!
- Aerate in fall for best results.

September:

- Feed lawn after the hot, dry, summer months.
- No better time to control weeds.
- Aerate and power rake later in the year. It does less damage and the lawn will really respond next spring.
- Use Soil Activator to bring "stressed-out" lawns back to life.
- Take 50% OFF remaining plants w/cash.

Don't need to fertilize? Weed Free Zone comes in a liquid for the hardest to kill weeds around. Works in 24-48 hrs!!

October & November:

- Winterize as late as you can for the best results. We recommend Ferti-lome winterizer to feed your lawn all winter long. You'll be amazed how it looks next spring!

SOIL ACTIVATOR

- Contains Organic Humates
- Rejuvenates and strengthens lawns, gardens, and flowerbeds
- Conditions soil to hold more water and nutrients
- Full of natural, beneficial microbes and microorganisms
- If you've never used it, now is your chance to see what it can do for you!
- Our guarantee: use it once, and you'll be amazed at the results
